

15.2 Supporting land ecosystems through education

15.2.5 CU as a body offers educational programme/outreach for local or national communities on sustainable management of land for agriculture.

CU offers educational programme/outreach for local or national communities on sustainable management of land for agriculture:

- 1- **The 1st evidence:** CU launched the initiative محميات بلادي (“My Country’s Nature Reserves”) in Oct 2023 in collaboration with the German foundation Hans Seidel Foundation. The initiative aims to raise awareness and promote community participation in conserving natural reserves and biodiversity.
- 2- **The 2nd evidence:** Link to the Master's program in Sustainable Land Management - Faculty of Agriculture, Cairo University.
- 3- **The 3rd evidence:** Link to the land Department page - Faculty of Agriculture, Cairo University.
- 4- **The 4th evidence:** Link to the Desert Land Reclamation and Development Center page - Faculty of Agriculture, Cairo University.
